

Table 1. Fish and freshwater crustaceans (crayfish, shrimp) observed at the Andrews Road HRP site (site code: KR94KALG1, site ref 6021697) on Chelgiup Creek.

	Scientific name	Common name	Previously reported in the subcatchment <sup>1</sup>	Observed at site
				Dry season – Bunuru <sup>2</sup> March 2020
FISH	<i>Nannoperca vittata</i>	western pygmy perch	-	Y (first record)
	<i>Bostockia porosa</i>	nightfish	-	Y (first record)
	<i>Galaxias occidentalis</i>	western minnow	-	Y (first record)
	<i>Geotria australis</i>	pouched lamprey <sup>3</sup>	Y <sup>4</sup>	-
CRUSTACEANS	<i>Cherax cainii</i>	smooth marron	-	Y (first record)
	<i>Cherax preissii</i>	koonac	-	Y (first record)

Colour key for species:

Native: Freshwater	Native: Anadromous (Marine-Fresh)
-----------------------	--------------------------------------

For images and more information, see <https://rivers.dwer.wa.gov.au/southwest/fauna/>

<sup>1</sup> Based on all available data reported to the Department of Primary Industries and Regional Development as a requirement of species collection exemptions (see <http://freshwater.fish.wa.gov.au/>), prior to most recent assessment. Y = yes (recorded). This is the first time the site was assessed under the *Healthy Rivers* program. No previous fish sampling has been conducted in the subcatchment.

<sup>2</sup> One of the six seasons of the Aboriginal (Noongar) Calendar for South West Australia (for more information see [Nyoongar calendar - Indigenous Weather Knowledge - Bureau of Meteorology \(bom.gov.au\)](http://nyoongarcalendar.com.au/)).

<sup>3</sup> Pouched lamprey (*Geotria australis*) is listed by the Department of Biodiversity Conservation and Attractions as Priority 3, poorly known species.

<sup>4</sup> Recorded by landholder.
